

# 2021 EFFECTIVE MANAGEMENT OF ANAESTHETIC CRISES (EMAC)

DEPARTMENT OF ANAESTHESIOLOGY AND PERIOPERATIVE MEDICINE

## Who should attend?

EMAC is a mandatory course for all ANZCA trainees and is also accredited for Continuing Professional Development points and emergency response activities for Fellows and Provisional Fellows by the College. Anaesthetic trainees and GP anaesthetic trainees must have completed a minimum of one year of accredited training prior to attending the course. It is expected that the participants on the course would be capable of providing anaesthesia to a simple emergency case such as an appendicectomy without direct supervision.

## Why do the course?

The course introduces anaesthetists to the non-technical skills required for managing clinical emergencies. It provides strategies for using the available resources to lead and coordinate team activities and communicate effectively during emergencies.

In addition, EMAC revises the technical skills and requirements for handling common and life threatening situations during anaesthetic

care. The course updates the participants on emergency management procedures and discusses the practical application of clinical algorithms during time-pressured events.

## What is included?

- Human factors and human performance in anaesthetic care
- Cardiovascular emergencies
- Airway emergencies
- Anaesthetic emergencies
- Trauma management for the anaesthetist

## Do I get CPD/CME Points?

ANZCA: EMAC is accredited for 40 points (20 hours x 2 points per hour) in the knowledge and skills category in addition to both CICO and Cardiac Arrest emergency response activities.

ACRRM: 10 MOPS points

## How many participants in a course?

The maximum number of participants for EMAC is 10 to meet health and safety requirements. The course often has a mix of consultants, trainees and GP anaesthetists.

## DATES

Jan	Thu 28, Fri 29 and Sat 30 (Full)
Feb	Thu 25, Fri 26 and Sat 27 (Full)
May	Thu 20, Fri 21 and Sat 22
Jun	Thu 17, Fri 18 and Sat 19
Jul	Thu 15, Fri 16 and Sat 17
Aug	Thu 12, Fri 13 and Sat 14
Sep	Thu 9, Fri 10 and Sat 11
Nov	Thu 11, Fri 12 and Sat 13
Dec	Thu 2, Fri 3 and Sat 4

\*may be subject to change/cancellation due to COVID-19

## COST

AUD \$2850 (inc. GST)

## COURSE LOCATION

Epworth HealthCare –  
Clinical Education and Simulation  
Centre Level 5, Cato Wing  
89 Bridge Road  
Richmond VIC 3121
